- BUSINESS INTELLIGENCE

A Choice of Rental Software Solutions to Fit Your Needs

InTempo Core

Easy-to-use software for any single or multi-location rental business, including party and event, AV, general, and construction equipment rental. Perfect for businesses looking to manage operations and integrate seamlessly with QuickBooks™ and other accounting packages.

- Conquer Operations**
Core's flexible transaction processing system handles any mix of rental, sales, and service transactions.
- Streamline Transactions**
Create quotes, reservations, and work orders in an instant. Manage your business with ease with integrated credit card processing, custom contracts, special rates, and more.
- Manage Inventory with Precision**
Track equipment in real time across a single or multiple locations. Features include kits, inventory costing and valuation, automated work orders, and barcoding/RFID.
- Tie Directly to Your Accounting System**
Manage accounts receivable and integrate seamlessly with your accounting package.
- Your Business In Your Pocket**
Keep a pulse on revenue, utilization, and other key metrics with our stunning mobile app. Unleash your salespeople by putting equipment rates and availability and customer information at their fingertips.

“ It has just been extremely stable, easy to work with...very versatile.”

—Rusty Parr, A.V. Party Rentals, Newhall, CA

InTempo Enterprise

ERP Software that gives you the power to run everything from operations to accounting, with unified accounts receivable, accounts payable, and general ledger. Perfect for general and heavy construction equipment rental businesses looking to get to the next level.

- Manage End to End Rental Process**
With Enterprise, all your data is in one place from the quote all the way through invoicing, equipment maintenance and fixed assets.
- A Single Point of Control for All Assets**
Manage each item from the initial purchase order through to its disposal. Keep accurate inventory with stock taking, including cycle counts.
- Take the Guesswork out of Maintenance**
Create scheduled maintenance steps by equipment type based on calendar days, rental days, or by meter. Generate maintenance check forms and keep detailed history logs.
- Make Smarter Decisions**
Get insights into your business with powerful reporting and dashboard tools.
- Integrate with 3rd Party Applications**
Connect to industry-leading solutions including CRM, dispatch management and telematics.
- Your Business In Your Pocket**
Keep a pulse on revenue, utilization, and other key metrics with our stunning mobile app. Unleash your salespeople by putting equipment rates and availability and customer information at their fingertips.

“ When I need to look at something, I need to look at it now. Enterprise offers me the ability to have everything tightly integrated and have it available in real time.”

—Hernan del Aguila, Partner Rentals, Kingston, NY

“ If you run a local or regional rental business, we started InTempo specifically to serve you. With our unique mix of flexible technology, expert customer care, and community, we can help get your business where you want it to be. Our software has powered businesses across North America and beyond for decades.”

—Matt Hopp, General Manager, InTempo
