InTempo

Drive Your Business with Rental-Focused Online Analytical Processing

Create reports tailored to your needs with InTempo Core.

InTempo Core provides you with virtually limitless, online analytical processing capabilities. Customer, inventory and transaction data appears in a dynamic presentation that makes it easy to spot relationships and trends.

Analysis Your Way

Drag, drop and rearrange elements in the display to achieve your objectives, and see the results in real-time.

Uncover Powerful Insights

Instantly evaluate any number of variables, such as revenue for a time period by major rental product group, and then drill down to analyze components including trends by the type of customer renting those products. Choose to display the data in a numerical or graphical formats. Export to Excel or HTML formats.

Maximize Your ROI

Perform analysis such as history of a product group as to revenue trends by postal code to give an accurate analysis of an accurate analysis of geographic utilization; create reports on cancelled rental reservations and quotations to understand trends and patterns.

MORE INFORMATION ABOUT INTEMPO CORE

InTempo Core is a flagship system for rental, sales and services businesses utilized by hundreds of businesses of all sizes. The software is designed to integrate your business operations onto a single technology platform through five main application areas: transaction processing, database maintenance, accounts receivable, security management and reporting. Core is fully customizable, easy to use and accommodates your existing account software including Quickbooks®, Peachtree®, MAS 90® and other systems.

We Are InTempo

Built on a foundation with decades of experience, InTempo delivers the right rental management software and unrivaled customer service to independent rental businesses across equipment, tool, event and specialty markets.
